- ES** Tenga en cuenta las indicaciones y los pasos indicados en las instrucciones de montaje **07650 L... / 765...** .

- DE Montageempfehlung:**
Um ein Neigen des Tragprofils zu verhindern, sollten die Strahlerköpfe symmetrisch angeordnet sein (rechts / links gedreht). Eine einseitige Ausrichtung von mehr als 3 Leuchtenköpfen in eine Richtung führt zu einer Neigung des Tragprofils.
- EN Mounting recommendation:**
In order to prevent tilting of the trunking, the spotlight heads should be arranged symmetrically (turned right / left). One-sided alignment of more than 3 luminaire heads in one direction leads to tilting of the trunking.
- FR Recommandation de montage:**
Afin d'éviter que le profilé porteur ne bascule, les têtes de projecteur doivent être montées symétriquement (tournées vers la droite / gauche). Si plus de 3 têtes de luminaires sont orientées dans la même direction, le profilé porteur bascule.
- IT Consiglio per il montaggio:**
Al fine di evitare un'inclinazione del profilo portante, le testine dei proiettori dovrebbero essere disposte in posizione simmetrica (voltate verso destra / verso sinistra). Un orientamento unilaterale di più di 3 testine in una stessa direzione potrebbe portare a un'inclinazione del profilo portante.
- ES Recomendación de montaje:**
Para evitar que el perfil de soporte se incline, los cabezales deberán estar colocados simétricamente (girados a la izquierda / derecha). Si se orientan hacia un solo lado más de 3 cabezales en una dirección, se produce una inclinación del perfil de soporte.
